EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mardson McQuay on 8/27/2004.

This Examiner's Amendment claims are identical to the amended claims as they are listed in APPENDIX 08272004, that is made part of this Office Action.

In addition, claim 14 has been amended as follows in order to correct an obvious and minor dependency error: on l. 2 of the claim, "claim 13" has been changed to -- claim 11--.

Allowable Subject Matter

2. Claims 11, and 14-19 are allowed.

3. The following is an examiner's statement of reasons for allowance: Prior art does not teach in combination with the other limitations of the independent claim in the alternative: 1) neither the location of the acoustic liner "directly adjacent and downstream of the main nozzles", 2) nor a combustor having a diffusion flame pilot burner and premixed main burners. Although Sattinger 6530221 teaches on col. 5, l. 10 that the location of the acoustic liner may be anywhere within the flow path, there is no indication that he contemplated to place it anywhere else other than on the transition section, see loc. cit. and also col. 3, ll. 60-64. In addition, Sattinger is not disclosing the

combination of main/pilot burners as claimed. Suenaga 6640544 is teaching a combustor with all premixed burners (col. 2, l. 6 et seq.). In addition, the Suenaga patent is owned by the same assignee as the assignee of the present application (see 35USC103(c)).

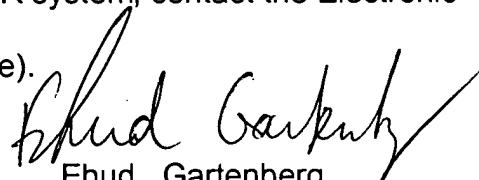

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Suenaga 6640544, Sattinger 6530221, Aigner 5373695, Zaba 2654219.
